clé

whether it's a moody guest bathroom, a dramatic grand foyer, a sophisticated kitchen, or even an entire house, our collection of dark tile is a go-to for designers and clients looking for sophistication, depth, and drama.

there's a dark hue for everyone. in our curation of clé classics you'll find budget-friendly slate, penny rounds, and stone. our clé heritage curation includes distinctively handcrafted tile that ranges from quiet and matte to show-stopper glossy. and our maison clé curation of artist and clé exclusives has the statement pieces that turn your design into a true one-of-a-kind.

better yet, artisan tile—our specialty—means that every tile is variegated, textured, and interesting. it's never a heavy, solid block of color, but presents a range of tones and intensities that add depth and dimension, character and life to any space.

use this lookbook to explore clé's many shades of dark tile, then use our site's filters to find exactly the right dark tile for your specific project.

## clé classic—moody hues

clé classics features some affordable staples of the tile world - think subway, slate, penny rounds, and even carrara. we like to refer to these as the ‘jeans and t-shirt’ of tiles—a great way to mix high and low.

dress them up with some handcrafted artisanal offerings or just keep them pared down to their simple elemental form: it’s all about the installation. these are great tiles for first-time homebuyers, those on a budget, or those looking for a high-low look. they also offer a consistent look and feel for those looking for more consistency and less variation.

if you’re feeling more adventurous and are planning on a fully professional installation, explore our clé heritage and maison clé curations for maximum character, maximum impact.

## clé heritage—moody hues

our artisan tiles embrace the imperfections of the hand - think sun-dried clay rolled into blocks and cut by hand, wood-fired tile, and pigments hand-poured into intricate molds. all these processes carry the mark of a skilled artisan and a craft often passed down through generations, reflecting the traditional heritage of the country.

the mark of the artisan means each tile embodies variation in tone and surface. typically created in small batches, these are tiles to be treasured for their hand-hewn quality with no two tiles perfectly alike.

due to the handcrafted nature of the tile, we recommend hiring an experienced tile installer familiar with these materials.

looking for a more straightforward tile? explore our clé classics. but if you're willing to dial up the creativity and character, maison clé could be for you.

## maison clé—moody hues

where art meets tile. our exclusive tile offerings feature collaborations with artists from across the globe and we very much consider these pieces works of art. think of them as accent walls or the focal point of a room.

much like art, they require skillful installation with an experienced installer.

these are the boundary-breaking tiles that have put clé at the forefront of tile design.

if you're looking for tile with a little less character but with a clear artisan feel, explore our clé heritage curation. and if more uniformity and predictability (but no less flair) are important to you, you'll find your tile in clé classics.
