

Mid-century Mosaic Installation Blueprint

clé

Mid-century Mosaic Bundle

Mid-century Mosaic Bundle

- 1. Purchase one bundle of mid century mosaic, which includes one 24 piece box of solid white 4x8 rectangles, and one 48 piece box of solid white 4x4 squares.
- 2. Out of the 72 pieces, you will be able to make three 24 piece groupings, each including 8 rectangles and 16 squares.
- 3. Arrange the 24 piece groupings into the below configuration which can be mirrored or flipped top to bottom in order to create a random look within your layout.
- 4. We recommend a 1/16"-1/8" grout joint to achieve the desired look.
- 5. One bundle (72 pieces) or three 24 piece groupings will cover approximately 10.5 square feet when a 1/16"-1/8" grout joint is used.
- 6. Note: your actual install should be adjusted from our recommended layout as needed.
